Huckabee is committed to the success of all students and the profound impact it has on all of us.

MORE THAN ARCHITECTS

We are more than architects, we are a team of experts, each focused on a unique aspect of education, standing beside you as we work toward a common goal: the success of all students.
Our Firm
Since Huckabee opened its doors in 1967, our commitment has never wavered—we are solely and deeply devoted to the success of all students. Our higher education experts create environments that honor tradition while cultivating community, inspiration and innovation. Environments that adapt to ever-changing intellectual and social needs. Environments that provide the tools and technology students need to flourish in the 21st century.

We are a multidisciplinary team of problem solvers with unparalleled experience and cutting-edge research capabilities. During our tenure, Huckabee has completed more than 3,500 projects for over 150 clients. Today, we have five offices across Texas—located in Austin, Dallas, Fort Worth, Houston and San Antonio—plus an educational research facility, LEx Labs, at Baylor University.
